

The Business of Disease Documentary DVD

Price: \$20.95

Short Description

Award-winning The Business of Disease Documentary DVD

Description

PLEASE SUPPORT THIS VERY IMPORTANT FILM AND SHARE WITH OTHERS!

is a seventy-four-minute documentary exploring the hypnosis of marketing,

The Business of Disease

belief systems and the body's ability to heal. The Business of Disease documentary exceeds the

marketing of dis-ease but also examines the environmental and social programs from which our choices

and experiences are shaped. It is an observation of how and why we have become catalysts for the business of disease. The film aims to provide options and insight into cutting-edge possibilities. Science is integrated as a means of opening the door to available possibilities in better understanding the inner technology of spirit, mind, and body. The documentary takes a “whole being” approach in dealing with dis-ease. This is a film that encourages us all to be unafraid to take responsibility for our bodies, our spirits and our minds.

“Plenty of truth”

The Hollywood Reporter

"Cast suspicion on Big Pharma"

LA Times

"Brisk, informative film"

Village Voice

"I think the film is very timely!"

Foster Gamble, Producer of the film "Thrive"
