Price: \$45.00

Short Description

A virtual three hour workshop on Zoom with Sonia

Description

During our recent February **FREE Reality Wednesdays Teleconference**, gathering I mentioned the possibility of facilitating a short workshop that will establish more context, tools and insights on **What it means to do the work** and how to observe self without viewing the process as "work" (based on our programmed definition of work)! If you were not at the February gathering you may listen to the replay at the following link [CLICK HERE TO LISTEN](#)
